

More Orders for Solar Technology in Italy

MAC Capital AG accompanies new solar projects in Italy

Buonas, 17th March 2011 – The Podelta 1 and Podelta 2 solar plants, as well as the plant in Lizzano, are ready for investment and construction. The investment sum amounts to 9.4 million euros. The 3 megawatts of power should be finished before the 30th May 2011. This completion deadline makes use of the higher feed-in tariff applicable at present. The plant will be built and operated with the experienced general contractor, Telefunken Solar. The yearly feed-in tariff has been declared at 1.2 million euros. The returns for these plants come to an average of 13% in relation to the invested capital.

Another 6 megawatts of power in Italy are prior to their planning phase. The start of construction of an additional large plant with a planned total power output of 82 megawatts has been announced for the 1st of June 2011.

About MAC Capital AG:

MAC Capital AG is a venture capital and project development company with headquarters in Buonas, Switzerland. It invests primarily in the areas of green technology and renewable energy. Other areas of investment of MAC Capital AG are commodities and other opening markets. MAC Capital AG generates yields in the area of equity interests through dividend payouts of subsidiaries and exits, and in the area of project development through licensing fees, commissions and similar yields.
