MAC Capital AG Informs About Market Entry in Morocco

Expansion into other important foreign markets

Buonas, 21st March 2011 – Through the Intreso GmbH, French branch, the MAC Capital AG positions itself in Morocco. The main areas of activity are:

- Renewable energy based on solar thermal processes and photovoltaics
- Water technologies for drinking water processing and waste water disposal.
- Construction of slaughterhouses based on the most modern hygiene and environmental technologies.
- Construction of a wafer factory and of a solar module production plant with affiliated partner companies.

The MAC Capital Group will implement this together with its partner Mr. Lakhdar Messoussi. The consultant engineer has already established the necessary contacts for this. A first project is being defined. In the course of the project realization, MAC Capital AG will found a joint venture with a local company.

Gert Wolf, CEO of MAC Capital AG, says: "We are very happy about this new market entry in Morocco, and we would like to thank Mr. Lakhdar Messoussi expressly for his substantial support. Morocco is a very stable country with high growth potential. In addition to the services in the areas of solar and water technologies, we are now examining an involvement in the area of raw materials in Morocco."

About MAC Capital AG: MAC Capital AG is a venture capital and project development company with headquarters in Buonas, Switzerland. It invests primarily in the areas of green technology and renewable energy. Other areas of investment of MAC Capital AG are commodities and other opening markets. MAC Capital AG generates yields in the area of equity interests through dividend payouts of subsidiaries and exits, and in the area of project development through licensing fees, commissions and similar yields.
