Successful Participation in Fair in Casablanca, Morocco

MAC Capital AG strengthens its international presence

Buonas, July 1th, 2011 – The subsidiaries Intreso GmbH and Intaqua International GmbH, in cooperation with Lavaris Technologies GmbH, took part as exhibitors in the 1st Fair for Renewable Energies in Casablanca, Morocco, from the 21st to the 23rd of June, 2011. Business managers Jörg Steiger, Siegfried Kraneis and Rüdiger Menges rated the participation in the "1er Salon des Energies Renouvelables" as very succesful. Morocco is yet another country which imports oil and gas, and as such suffers the consequences of rising energy prices. This represents a catalyst for the renewable energies sector.

The innovative technologies presented at the fair generated great interest in numerous visitors. Along with solar technology, a focal point for Intreso GmbH was also biomass combustion in the energy sector. Intaqua International GmbH and Lavaris Technologies GmbH were the only exhibitors present with solutions in water technology, and this product portfolio enjoyed great popularity.

The circle of visitors encompassed mostly planning office engineers who were looking out for alternative technologies and also who were looking for potential foreign partners for the implementation of projects in Morocco. In general, in Morocco there is also great interest in German technology and engineering expertise. The subsidiaries of MAC Capital AG were able to offer sustainable solutions through individual concepts and services.

About MAC Capital AG:
